

Empty but Live: Ship a Blank Page

Track: General AI Fluency

Week: 4

Phase: Build

Workload: 2 hours

Project

Personal Portfolio Website

Owner

Muhammad Ali Sumair

1. Project Created

I created the initial project for my personal portfolio using my chosen technology stack.

Technology Stack:

2. Live Website

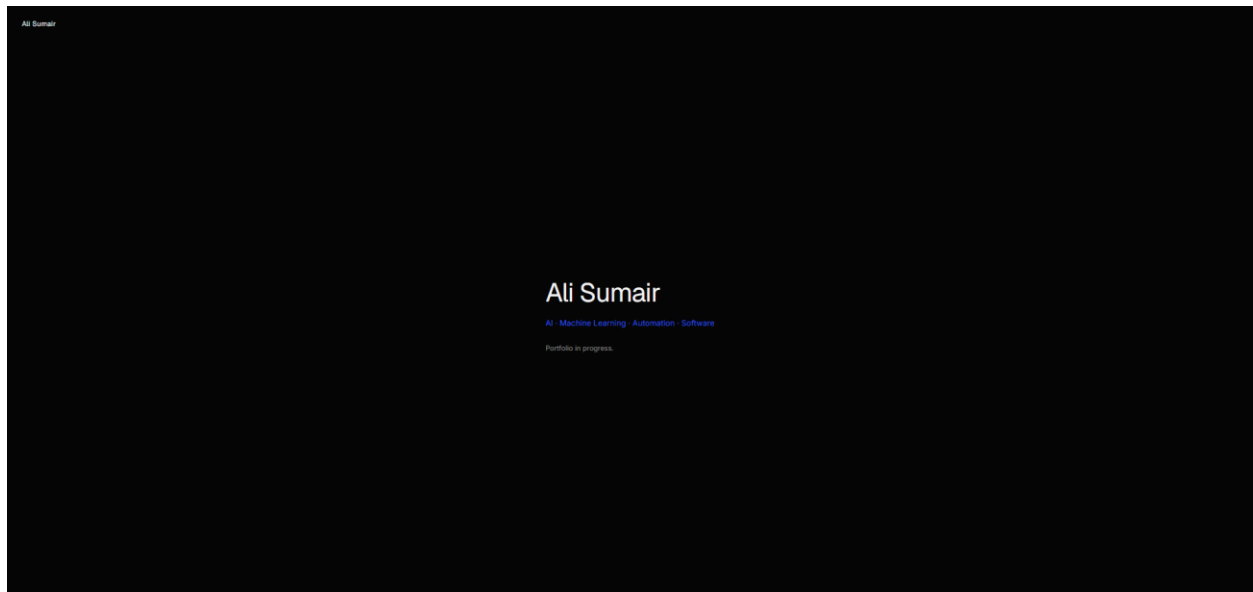

The project has been deployed and is publicly accessible.

Live URL: <https://blank-page-website-tau.vercel.app/>

3. Mobile Verification

I opened the live website on my phone and confirmed that the page is reachable and working.

Screenshot of the Live Website:

4. Portfolio Materials Added

The following materials from the previous assignments have been added to my Claude Project for the portfolio build:

Identity Kit

Case Studies

Content Map

5. Final Deliverable

Public Website URL:

<https://blank-page-website-tau.vercel.app/>
